Development Management Institute

Recruitment of Research Assistant-WASH Observatory

Development Management Institute (DMI) is seeking applications from professionals for the post of **Research Assistant** who will be working on various projects under the Water, Sanitation and Hygiene (WASH) Observatory in Patna, Bihar. The observatory would contribute to the dignity, health and well-being of women and children in Bihar, who currently suffer the consequences of inadequate, limited or no sanitation and poor WASH services.

Job Responsibilities

- To collect, organize, analyze, collate data and synthesize recommendations/findings into clear and compelling presentations and reports
- Building strong relationships with relevant stakeholders including policymakers, public agencies, businesses, subject-matter experts, funding agencies, academia, and like-minded organizations
- Conduct detailed research & analysis on WASH issues to drive decision making at the policy level
- Staying abreast of WASH initiatives and issues in India and globally
- Any other task as and when assigned by the institute.

Competencies

The following competencies are desirable from the prospective candidates:

- An ability to undertake quantitative and qualitative data collection and data analysis
- Must have good writing and communication skills both in English and Hindi.
- Ability to write scientific reports and concepts/proposals
- Knowledge of using statistical software like SPSS
- Must demonstrate advanced analytical and problem solving skills.

Required Educational Qualification & Relevant experience

Under-graduation in Management, Science and other relevant disciplines followed by Post-graduation in Population Studies Demography/ Population Studies/ Statistics/ Economics/ Public Health Policy/ Development Studies/Development Management/Rural Management, or in related social sciences from reputed institutions in India or overseas.

Professional experience of minimum 2+ years for Research Assistant
